

**ELECTRONIC COMPONENT CLEANER
ISOL EC 183**

ISOL EC 183 is an aerosol spray cleaner for cleaning, maintaining and servicing electronic components and circuits boards. It is composed of a special cleaning fluid exhibiting high solvency, relatively rapid evaporation characteristics and deep penetrating properties. It does not attack metals and common plastics. However, certain delicate plastics and PCB protective coatings be affected on contact.

FEATURES

- Excellent cold cleaning property.
- Readily dissolves contaminants such as dust, dirt, oils, greases, waxes, flux, carbon deposit etc and flushes them away.
- Free from moisture.
- Fast & residue free evaporation.
- Jet spray action ensures reach into inaccessible zones.

TYPICAL SPECIFICATIONS

Color	Clear, Water white
Copper Strip Corrosion, 3 hrs, 50°C.	Passes Test
Flashpoint of actives, °C	> 25
Flammability of Propellant	Flammable

APPLICATIONS

It is commonly used to clean electronic components and circuit boards of Television, Radio and Audio Equipment, Computers, Phones, Fax machines, EPABX and telecom equipment, electronic household, Industrial, office and medical equipment etc.

CAUTION

This is a pressurized aerosol can. Do not punctured, heat or incinerate. Store away from sunlight and other heat sources. Do not spray on flame or heat sources. Do not store above 50 °C. Use in a well-ventilated area and avoid excessive inhalation, eye or skin contact.

SHELF LIFE

The Cans should normally be used with in twelve months from date of manufacture.

PACKING

12can of 350 gm. each are packed in one corrugated box.
