

## TECHNICAL DATA SHEET

### GREASE COAT SPRAY ISOL GC 704

ISOL GC 704 contains modified, high performance grease, packed in a spray can. The grease sprays out like oil but sticks to the substrate like a grease without flowing off. This product is a very useful product for lubricating complex components and mechanisms without the need of dismantling for lubrication. The grease contains polymeric additives that enhance the lubricity and improve adhesion of the grease to the substrate.

### FEATURES

- The grease coat has anti corrosion and weather resistance properties.
- Excellent lubrication under conditions of high temperature prolonged our door exposure and high load.
- The grease coat is squeeze resistant, drip resistant and throw resistant due to its adhesive nature.

### TYPICAL SPECIFICATIONS

Colour	Cream/ Off white
Appearance	Frothy paste
Copper strip Corrosion	Passes test
Water washout	Passes test
Humidity Chamber, 24 hrs	No Corrosion

### APPLICATIONS

All kinds of mechanisms that are exposed to outdoor weather conditions or remain inactive for prolonged especially useful for lubricating such components and assemblies that are subject to sudden movement after being stationary/ inactive for long period of time. Lubrication of locks, hinges, ball and socket joints, chain links, bushes, bearings, pins and similar components, which require dismantling for lubrication.

### CAUTION

This is a pressurized aerosol can. Do not punctured, heat or incinerate. Store away from sunlight and other heat sources. Do not spray on flame or heat sources. Do not store above 50 °C. Use in a well-ventilated area and avoid excessive inhalation, eye or skin contact.

### SHELF LIFE

The Cans should normally be used with in twelve months from date of manufacture.

### PACKING

12can of 250 gm. each are packed in one corrugated box.
